**Civil Engineers**

**Based: Leeds**

**£attractive + bonus + benefits + WAL-MART share schemes**

At ASDA we're at the forefront of innovative store development. We set the benchmark with our unique vision, creatively combining new and refurbished developments with housing and local community projects.

By thinking the unthinkable, our Store Development Team pioneer ground-breaking solutions with their creative approach. From the conception of a project right through to its execution, our solutions orientated professionals see their blueprints turn into reality.

**Think the unthinkable...**

...then make it *happen*

Our large-scale expansion programme will see the growth of our superstores, as well as more high street GEORGE and ASDA Living stores.

As a result, we require highly creative and original thinkers, to ensure we get there before anyone else.

If you have what it takes to make it happen, please send your CV with covering letter and salary details, quoting reference AH-002336-01 to: [enjoyjobs@asda.co.uk](mailto:enjoyjobs@asda.co.uk) or send it to: Lee Readman, Resourcing Department, ASDA House, Great Wilson Street, Leeds LS11 5AD.

At ASDA we do not tolerate any form of discrimination.
